JP EXPORTS & IMPORTS

**“Safety rules are
your best tools”.**

JP Exports and Imports has been delivering standards of high calibre and durable safety products, and we are always delightful to surprise our customers, by making our focus on usability, reliability, and ease of using our products.

Our Mission

JP Exports and Imports operates by the rule “Safety rules are your best tools”.

The mission of our company is to make people’s lives safer and broaden the awareness of safety products amongst our valuable customers as well as non-clients.

Key Principles of Company

Safety is the priority, Quality is the standard
Customer is our boss
Challenge and Drive change
Performance with speed and agility
Proactively encourage excellence as "TEAM JPEI"
Always seek opportunity to deliver value to the customer

DOOR STEP DELIVER- Startegy

Our company's uniqueness stands in delivering the products to the "Door-Step" of our customers. Through the door step delivery process, JPEI seeks to deliver DELIGHTS along with products ordered by our precious customers. The products will be delivered no matter - Whenever it's required, Where-ever it's required or How often it's required.

Product Flexibility- Strategy

The Research and Development team is always open to customer's specification over the products and this team is capable enough to alter any product according to client's requirement. Thus we introduced "Product-Flexibility" policy to ensure that customers doesn't go discontented.

≡ SAFETY GLOVES

COTTON KNITTED GLOVES

Cotton Knitted gloves are manufactured by well trained workforce and we make use of superior grade of cotton yarn for the manufacturing process.

#1

BANIAN GLOVES

Banian gloves are manufactured by excellent professionals and they are capable of cutting the banian cloth into accurate definite shapes and stitching them all together for end product.

#2

LEATHER GLOVES

Our most trusted Leather gloves built with natural leather provide heavy-duty abrasion resistance so you can handle rough materials and operate heavy power tools with confidence.

#3

RUBBER GLOVES

Rubber gloves are a standard tool in maintaining sterile and clean operations within any facility.

#4

NITRILE GLOVES

Disposable nitrile gloves offer superior performance in a variety of applications and across a broad range of industries.

#5

SURGICAL GLOVES

The surgical gloves that we supply are designed to maintain a comfortable and wrinkle-free fitting. The extremely soft rubber reduces finger fatigue and increases efficiency.

#6

JEAN GLOVES

Jeans gloves are manufactured with qualitative jeans fabric so as to bring forth a qualitative range and gives comfort for hands. We are engaged in supplying a formidable range of Jeans Cloth Hand gloves.

#7

CUT RESISTANT GLOVES

Cut-resistant gloves are designed to protect working hands in industries where sharp tools and sharp materials are present. Our cut resistant gloves provides functional cut resistance to the palm

#8

HEAT RESISTANT GLOVES

Heat-resistant gloves made of fire-resisting fiber which helps in providing critical thermal protection in extreme environments where workers are exposed to intense heat and sharp objects.

#9

≡ SAFETY PRODUCTS

SAFETY HELMETS

Safety Helmets is required in almost every industry where there is a risk of being injured from falling objects or when working in areas of restricted head space.

#1

SAFETY GOGGLES

Safety goggles are a type of personal protective equipment (PPE) that is worn on the eye for its protection. Essentially, goggles are safety glasses that fit tightly to the eye.

#2

EAR PLUGS

Earplugs have long been promoted as a way to help avoid noise induced hearing loss and to protect the ears from noise trauma.

#3

NOSE MASKS

A nose mask is a flexible pad held over the nose and mouth by elastic or rubber straps to protect against dusts or chemicals encountered in chemical labs and in construction or cleaning activities, such as dusts from drywall, brick, wood, fiberglass, silica

#4

APRONS

Aprons are generally used during welding, cutting tools, chemical labs, kitchen and automobile industries.

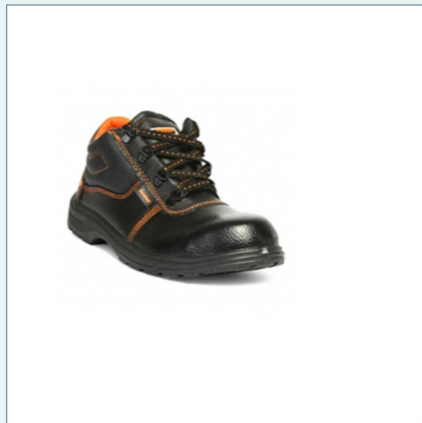

#5

ARM AND LEG SLEEVES

JP Exports and Imports cotton sleeves offer added protection from minor scrapes or abrasions. Cotton is cool and comfortable to wear and is excellent for workers in warm climates who need an added bit of protection.

#6

SAFETY SHOES

Safety shoes are personal protective equipment for foot protection at workplaces. It prevents us from getting foot injuries due to slippery surface, heavy falling or rolling objects, sharp piercing edges, pinch points, rotary machinery, hot objects, loops of ropes under tension, splinters, electricity, chemicals or even bad weather etc.

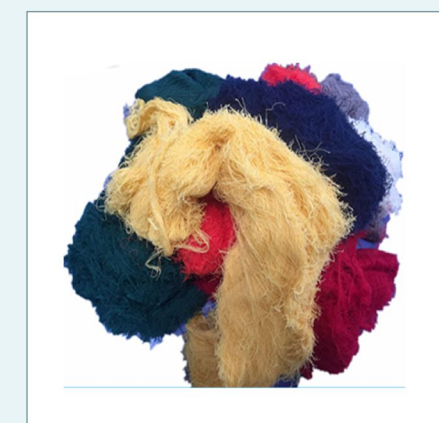

#7
